

Curriculum Connections – SONG OF FREEDOM, SONG OF DREAMS

When I read *Song of Freedom, Song of Dreams* by Shari Green early in 2025, it was because I have a personal love of verse novels as a format for story. And, truthfully, I was intrigued that 1989 could be a setting for historical fiction. I remember when the Berlin Wall fell. I was excited to see Democracy win. However, I didn't have a sense of the real cost of that moment.

Helena, the main character in *Song of Freedom, Song of Dreams*, gave me the ability to imagine what that cost might have been for me if I had been living in East Germany at that time. She wrestled with tough circumstances of losing a best friend who defected from the GDR with her family, a budding romance with a boy that could jeopardize her safety, and the stress of living in that communist police state. As captivating as Helena's story is, the understory of how peaceful protest of prayer and song, at the cost of life and liberty to many of her family and compatriots, is what I identified with as a grownup reading this YA novel.

As an educator, I could not help but see tremendous interdisciplinary connections between Humanities core subjects: History, Music, Language Arts and Literature, Political Science, Sociology, and Psychology. Even though middle school students as young as 13 will enjoy *Song of Freedom, Song of Dreams*, young adults in high school could benefit tremendously from the background knowledge and context this novel provides for many subjects of study.

I hope many young people and adults read this novel. Additionally, I encourage educators to make it available for their students who also have dreams. This hope is what led me to draft curriculum connections for educators who might seek teaching and learning from *Song of Freedom, Song of Dreams* in a more formal, academic way. What follows is a list of activities, connections to US Common Core State Standards as well as American Association of School Library Standards Framework for Learners.
